

IMPACT OF WINNING ON FRANCHISE VALUE IN THE NATIONAL FOOTBALL LEAGUE (NFL)

Chris Domoracki | Brendan Barrett | William Cerepak

May 7, 2026

RESEARCH QUESTION

Do winning seasons for professional sports teams significantly increase overall franchise valuations across all professional sports? Looking at NBA, MLB, NHL, etc...

Do winning seasons for professional soccer teams in Europe increase overall team valuations?

How much does winning in the NFL affect enterprise value of an NFL franchise across different market sizes and seasons?

BIG PICTURE FOCUS

Effect of NFL Team Winning
Percentage

$$\text{Winning \%} = \frac{\text{\# of games won}}{\text{\# of games played}}$$

Franchise Enterprise Value

How much money would the entire franchise of an NFL team be sold for if you were to buy it and own it?

HOW NFL TEAMS ARE VALUED

FEBRUARY

AUGUST

Pre - Season Begins

1. Franchise valuations are measured in the following calendar year to account for the full NFL season cycle, including the regular season, playoffs, and Super Bowl.
-

VARIABLES USED

Variable Name	Variable Type	Description
value	Numeric	Enterprise value of NFL franchise (in billions of USD)
szn_win_pct	Numeric	Team winning % in the regular season
season	Numeric	The year corresponding to each regular season
home_fans	Numeric	Total # of fans that attended home games for a team during the regular season (in thousands of USD)
avg_home_fans	Numeric	Average # of fans attended per home game for a team during the regular season (in thousands of USD)
capacity	Numeric	The total seating capacity inside a team's stadium
stadium_age	Numeric	How many years old a team's stadium is
new_stadium1	Indicator	Indicator variable for if a team is playing in their <u>first or second</u> regular season in a new stadium (when stadium age is less than 2 years old)
renovation1	Indicator	Indicator variable for if a team's stadium had undergone new renovations
sb_wins	Numeric	The total cumulative number of super bowl championship wins a team has won in its history
payroll	Numeric	The total payroll an NFL team spends on its roster of players in any given regular season (in millions of USD)
dead_cap	Numeric	Total amount of salary cap charge tied up to players no longer on a team's roster (in millions of USD)

DATA

- Included data from **2016-2024** of all **32 teams in NFL**, totaling 320 observations
- Used Forbes reported NFL Enterprise Values represent *Total Value of NFL Franchises*, including teams overall equity value, debt, and cash.
- *Winning Percentage* of each team per year, representing the portion of games a team wins relative to total games played for the 2016-2024 seasons.

	Season	Min	Q1	Mean	Median	Q3	Max
	<dbl>	<dbl>	<dbl>	<dbl>	<dbl>	<dbl>	<dbl>

- $Value_{it}$ = Dependent Variable : represents the enterprise value of NFL franchise i in season t , measured in billions of USD using Forbes franchise valuations
- WinPct = Main Variable of interesting: regular season winning percentage for an NFL team, calculated as wins divided by total games played
- HomeFans = Total home game attendance for a team during a regular season, serving as a proxy for fan engagement
- Capacity = Total stadium seating capacity, size of franchise stadium and franchise potential
- StadiumAge = Age of Stadium in years
- SB Wins = Total # of Super Bowls won in that specific year by a franchise
- Payroll = Total team payroll spending on player salaries
- γ = season fixed effects
- α = Team Fixed Effects: Controls for all time-invariant franchise characters
- U = Error Term

Conclusion

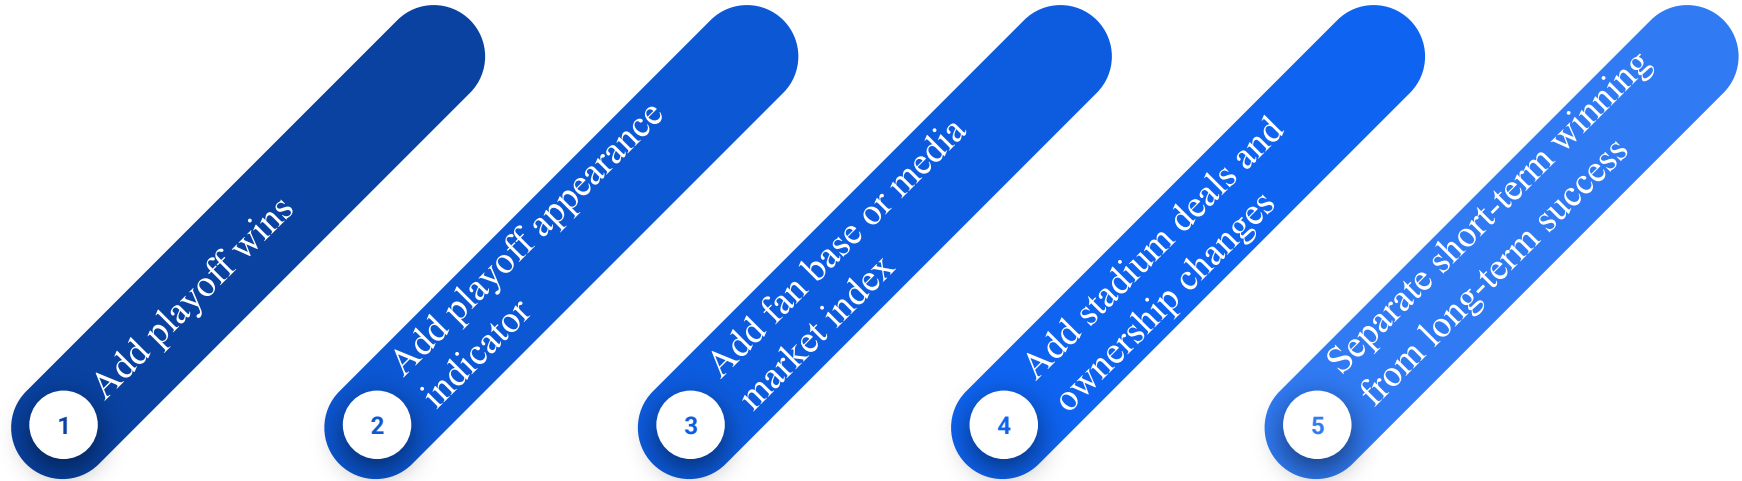

What Our Results Suggest

Winning
percentage is
alone not
enough

Franchise
Value is shaped
by deeper
business factors

The NFL may
be protected by
revenue sharing
and league-
-wide growth

Improve the Model

- 
- 1 Add playoff wins
 - 2 Add playoff appearance indicator
 - 3 Add fan base or media market index
 - 4 Add stadium deals and ownership changes
 - 5 Separate short-term winning from long-term success

Expand Beyond the NFL

- Compare **NFL** to **NBA**, **MLB**, **NHL**, and **MLS**
- Test leagues with different salary cap and revenue-sharing structures
- Winning may matter **more** where revenue is less evenly shared
- **Future extension:** study the **WNBA** separately as women's sports valuations grow

Questions?

THANK YOU!
